An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 4-8, which are directed to a non-elected invention without traverse. Accordingly, claims 4-8 have been cancelled.

The following is an examiner's statement of reasons for allowance: the prior art taken alone or in combination neither discloses nor makes obvious the instant invention including applying a nitriding treatment to a surface of a copper-containing film from which copper oxide has been removed, and forming a copper-diffusion film comprising a silicon on said copper-containing film which has been subjected to the nitriding treatment. Therefore, the prior art of record neither anticipates nor renders obvious the claimed subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
